

# General Information

## Personal Information

First Name	Vladimir Rodchenko
Professional experience (years)	10

## Education

Educational institution	Grodno State University
<b>Specialty</b>	<b>Informational systems and technologies in economics</b>
Graduation year	2010
<b>Specialty</b>	<b>Software Development and Architecture</b>
Graduation year	2013

## Languages

English	Intermediate
Russian	Native

# Professional Experience

## Project Traveling

Duration	0.5 years
Project Description	Travel agency web site with online booking capability
<b>Technologies</b>	Platforms: Windows, IIS, MS SQL Server 2005 Languages: C#, JavaScript, HTML Tools: .Net 2.0, Asp.Net 2.0, ADO.NET
Role	Lead developer
Responsibilities	Team Lead, Functional development, System Architect, Client Side and Server Side Programming

## Project e-Learning and Education

Duration	2 years
Project Description	Grodno regional library website and backend system (in terms of government grant)
<b>Technologies</b>	Platforms: Windows, IIS, MS SQL 2005/2008 Languages: C#, JavaScript, HTML Tools: .Net 3, Asp.Net, MVC, NUnit, LINQ, Castle Framework, WinForms, Web Services
Role	Lead Developer
Responsibilities	Team Lead, Functional development, System Architect, Programming

## Project Marketing

Duration	1.5 year
Project Description	Regional e-catalog of firms and services
<b>Technologies</b>	Platforms: Windows, IIS, MS SQL Server 2005 Languages: C#, JavaScript, HTML, CSS Tools: .Net 2.0, Asp.Net 2.0, ADO.NET
Role	Lead developer and entrepreneur

Responsibilities Team Lead, Functional development, System Architect, Programming

Project	Finance
Duration	4 months
Project Description	Product description: A set of stock/financial data widgets that can be published on 3rd party websites Platforms: Windows, IIS, MS SQL Server 2005
<b>Technologies</b>	Languages: C#, JavaScript, HTML, CSS Tools: .Net 3, Asp.NET, MVC, jQuery, Entity Framework
Role	Developer
Responsibilities	Client-Side and Server Side programming

Project	Stock Alerting SaaS application
Duration	4 months
Project Description	Stock Alerting SaaS application – allows users to maintain portfolios of stocks, configure alerts based on various criteria and get the alerts via email based on end of day stock trading data
<b>Technologies</b>	Platforms: Windows, IIS, MS SQL Server 2008 Languages: C#, SQL Tools: .Net 3.5, NHibernate
Role	Developer
Responsibilities	Responsibilities: Win Services and SQL procedures improvement, integration with 3rd party data providers, Website client-side and server-side development

Project	Finance
Duration	4 months
Project Description	SaaS for creation of highly customized stock data based charts (something similar to stockcharts.com) Platforms: Windows, IIS, MS SQL Server 2005
<b>Technologies</b>	Languages: C#, JavaScript, HTML, CSS, ExtJs 3 Tools: .Net 3.5, Asp.Net, MVC, Web Services, JSON
Role	Developer
Responsibilities	Programming

Project Finance	
Duration	3 months
Project Description	Windows console application for importing and processing of intraday stock data
<b>Technologies</b>	Platforms: Windows, MS SQL Server 2008 Languages: C#, T-SQL
Role	Lead developer
Responsibilities	Database design, development of stored procedures, SQL performance optimization for large amounts of data.

  

Project Telecommunication	
Duration	6 months
Project Description	The purpose of the platform is to provide customers with the means to recognize, reward and incentivize employee behaviors, consistent with customer's values, to encourage employees to assimilate and exhibit the ethos, motivations, initiative and self-awareness.
<b>Technologies</b>	Platforms: Windows, MS SQL Server 2008 Languages: C#, T-SQL
